Exterior Door Collections

BARRINGTON. ULTIMATE STYLE & DURABILITY

SIERRA.

FLAGSTAFF.

Mahogany* Oak*

- ▶ Featuring superior woodgrain texture, distinct raised mouldings and wider glass, Barrington doors offer the ultimate in style and durability.

▶ *More Barrington door options available, see page 14.

VISTAGRANDE. BRING THE OUTDOORS IN

TEXTURED

SMOOTH

Fir Smooth

- ▶ VistaGrande Flush-Glazed doors offer a wider viewing area and cleaner appearance over traditional glass inserts. Stile and rail features provide an authentic wood door look.

HERITAGE SERIES. AUTHENTIC CRAFTSMAN DETAIL

SMOOTH

TEXTURED

SMOOTH

Fir Smooth

- ▶ Heritage Series Craftsman door designs are available as opaque in both 6'8" and 8'0" applications to provide privacy and security or add one of the designs from our Heritage Series decorative glass collection.

BELLEVILLE. THE ORIGINAL FIBERGLASS

TEXTURED

SMOOTH

Mahogany Oak Fir Smooth (shown in beige)

- ▶ Belleville doors feature distinct architectural details, a reinforced lock area and thousands of customizable glass and panel combinations to choose from.

HD STEEL READY TO PAINT

HD Steel

- ▶ Masonite HD Steel doors come primed and ready to paint. These doors feature high-definition decorative panel profiles that closely replicate the appearance of a high-end wood door with the ultimate in security.

STA-TRU. PRE-PAINTED STEEL

Sta-Tru

- ▶ Sta-Tru doors offer the security of steel. The door comes pre-finished with white paint, so there's no need for additional finishing unless you want to add a pop of color.
- ▶ Available in a wide range of profiles, sizes, glass and fire ratings, Sta-Tru steel doors are a sound choice for front door or house-to-garage applications.

Lexington Entry Systems

by

KENTUCKY WHOLESALE BUILDING PRODUCTS

Kentucky Wholesale pre-hangs Masonite® door panels using the finest quality components. Treated and primed frames are standard, with options for rot free frames, as well as white, almond, or sand clad frames. Premium Oak high-dam adjustable inswing or outswing sills and continuous head & sill for sidelite units, are all standard. Glass options include: grill between glass (in white, tan, or 2 tone), low-e glass, and blind between glass (also raise & tilt). Also available are many options for jamb (wall) thickness, spread mulls, and fixed/operating configurations.

OVER 150 YEARS OF CRAFTSMANSHIP.

At Young Manufacturing, craftsmanship means more than just all-clad construction, the finest materials and an uncompromising work ethic. It is the Young family's commitment to **long-lasting durability** and **maintenance-free performance** that dates back to 1858.

HP CLAD® SILL
US Patent #6,484,446

Fully-cladded maintenance-free exterior

Flashing weatherstrip keeps water out and protects the exterior components

Cap construction cover is standard

Oil-treated hardwood base and threshold cap are rot-proof

Furniture-grade hardwood interior

Look for the name Young stamped on every one of our products as a sign of our pride, our commitment and, yes, our craftsmanship.

1-800-545-6595
www.youngmanufacturing.com

Continuous head, sill and mull system

Utilizing a continuous head, sill and one-piece mull assembly maximizes the stability and rigidity of any sidelited unit. This continuous system also simplifies assembly and virtually eliminates racking and bending. NOTE: Mill finish is standard on all sills. Bronze finish is also available.

High Performance weather stripping

Vinyl-wrapped, foam-filled, compression weather-stripping and corner seals are added to the door frame providing protection against air and water infiltration.

High-dam adjustable sill

High-dam sills create a positive barrier to water infiltration. The high-dam design feature holds back the inevitable rise in the water level against the threshold as wind speed increases. Combining high-dam technology with a high quality door bottom seal, securely protects the bottom of the door unit from air and water infiltration.

The adjustable cap feature allows for easy field alterations. Fixed bumper and low-profile designs are also available to meet outswing or handicap accessible applications.

Exterior frame system

Primed wood frames and applied brickmould are standard. For additional frame options, such as other frame depths, stainable frames, vinyl-clad frames, and PVC brickmould, please see your dealer.

Magnolia Collection

All panels available in steel, textured fiberglass and smooth fiberglass
 All glass available in zinc and patina | Transoms available for 1/0-3/0-1/0 units only | Rough opening heights for doors including transoms: rectangular 95 3/4", elliptical 97 1/4"

CLAD+2 EXTERIOR DOOR FRAME

US Patent #6,161,343 • US Patent #6,125,605

Over 150 years of Young's proven engineering goes into every Clad+2 Exterior Door Frame. As a result, you get the stability of a hardwood frame with the rot free, maintenance free, never-needs-painting characteristics of vinyl.

1. Polymer-treated hardwood core encased in high-impact vinyl retains its stability indefinitely.
2. Patented zipper leaves no exposed fasteners – a Young exclusive. Yes! ... That means it NEVER needs painting.
3. Stop insulators do not allow water to wick from the face of the sill.
4. Jamb ends are polymer-treated to form a second line of defense against water entry.
5. Insulators on the ends of the jambs, brickmould and all vertical components prevent water from wicking up the frame.

Now in three popular colors

Multi-Point Locking Systems

ROCKWELL SECURITY LOCKS	LIST PRICING (ADD TO DOOR PRICE)		
	BUILDERS Multi Latch Hardware Only	Nickel, Bronze or Brass \$368 \$106	
	MONACO Multi Latch Hardware Only w/Dummy Kit	Nickel or Bronze \$431 \$166	
	WINDSOR Dead Locking Tongue Hardware Only w/ Dummy Kit	Nickel or Bronze \$512 \$213	
	SAVOY Dead Locking Tongue Hardware Only w/Dummy Kit	Nickel or Bronze \$575 \$283	
	TIMES SQUARE Multi-Latch Hardware Only w/Dummy Kit	Nickel or Bronze \$493 \$230	
		Multi Point Aluminum Astragal for Double Door \$30 8/0 Aluminum Astragal \$45	

As society continues to demand better security, more and more people are turning to multi-point locking systems. The multiple locking points combat forced entry by spreading out the pressure through the full length of the door panel. Additionally the multi-point systems lock the door in place, which keeps the door in better alignment with the frame. This helps to prevent warping in the door and keeps your entry system energy efficient.

* Multi-latch and dead locking tongue hardware are not interchangeable.
