

HOME  
ACCENTS®  
DESIGNER VINYL SIDING

 **NORANDEX**

BUILDING MATERIALS DISTRIBUTION, INC.

**AUTHENTIC** defined, natural grain texture gives HOME ACCENTS® panels the appearance of real wood. The randomness of the grain pattern creates a natural shadowing effect so that no two houses look the same.

**EASY TO INSTALL** just like traditional siding, HOME ACCENTS panels are fast and easy to hang. The installation technique is the same as with siding, with a familiar full length nailing hem, so no specialized training or tools are needed.

**PERFORMANCE** is assured by a strong, limited lifetime transferrable homeowner warranty, and a limited lifetime fade protection warranty\*. HOME ACCENTS panels are designed to resist buckling and open laps, and can be installed any time of the year.

**SCRAP REDUCTION** because of the random design and hidden seams even small pieces are usable during installation. This can result in up to 67% less scrap.

With the HOME ACCENTS line of Shakes, Staggered Shakes, Shingles, Fishscales and Rounds, there are endless design possibilities; whether it is for whole house treatment or to accentuate a certain area of the home.

All panels feature an exclusive ASA capping system, ColorHold®, for increased weatherability and color retention, and are backed by a limited lifetime fade protection warranty.\*

Further assurance that HOME ACCENTS products are manufactured to the highest standards is a limited lifetime transferable warranty\*; one of the strongest home owner performance packages available.

Ask your professional exterior contractor for assistance in selecting the right HOME ACCENTS panel, and the right color from numerous choices, to complement your home's architectural style.

\*See actual warranty for details.

CONSULT THE VSI WEBSITE AT: WWW.VINYLSIDING.ORG FOR A CURRENT LIST OF CERTIFIED PRODUCTS AND COLORS.

MANUFACTURED FOR NORANDEX BY:

At Norandex, we continue to search for new and innovative ways to give homeowners quality design options for the exterior of their homes.

## HOME ACCENTS® STAGGERED SHAKES

Staggered Shakes

## HOME ACCENTS® SHAKES

Split Shakes

The HOME ACCENTS line of Shakes and Staggered Shakes feature authentic cedar grain detail. The random patterns of each panel interact and change with the sunlight, giving each home its own uniqueness.

Unlike natural cedar surfaces, our panels won't crack, fade, buckle or rot. Excellent weather resistant properties enable the product to maintain its original beauty almost indefinitely. This means virtually no maintenance, and added protection for your single most important investment.

Shakes and Staggered Shakes go up fast and are easy to install. Their random design and hidden seams enable even the smallest pieces to be used, making each home even more unique.

# HOME ACCENTS<sup>®</sup> SHINGLES

**Shingle**

**Perfection Shingle**

HOME ACCENTS Shingles are designed to resemble the cedar shingles found on homes in the early 1800's. Just like on historical homes of the past, they have a naturally textured surface and edge, with an appearance of random marks of a mill saw.

However, there is one distinguishable difference from their predecessors of the past. Although they look alike, only one will stay looking the same for years to come... HOME ACCENTS Shingles. That's because they are engineered to resist the toughest of weather conditions. So unlike organic wood, they will never warp or split, or need to be painted or stained.

## SHINGLES

Durable to provide lasting beauty for the lifetime of your home. A 7" exposure per panel provides excellent accentuation to a gable or dormer.

## PERFECTION SHINGLES

Delivers the perfect balance of the deep texture of shakes and the clean lines of Shingles. Offered in a 7" exposure.

## SHAKES

Beautifully replicates natural hand split cedar. Profiles feature a distinctive 7" exposure.

Shakes are now available in six Weathered Collection™ Colors. These feature a darker hue of color in the grain and a lighter one on the higher points, just as a panel would weather naturally.

## STAGGERED SHAKES

Authentic cedar grain detail with a natural uneven pattern and rough-sawn edges. This profile is available in 7" and 10" exposures.

## HOME ACCENTS® ROUNDS

Rounds

## HOME ACCENTS® FISHSCALES

Fishscales

You provide the imagination, HOME ACCENTS Designer Vinyl Siding will provide the means. The end result? A beautiful low-maintenance exterior that creates a powerful visual statement about quality, style and good taste. HOME ACCENTS Rounds and Fishscales provide superior weatherability and color retention to practically eliminate the need for maintenance.

They're the perfect complement to the premium Norandex vinyl siding you choose. The availability of a wide range of colors allows you to match or contrast the siding for added accentuation.

The exterior provides the first and most important impression of your home. Make a statement that will last with HOME ACCENTS® Rounds and Fishscales.

### ROUNDS

Rich texture, deep shadow lines and an authentic hand split cedar design. The exposure per panel is 6".

### FISHSCALES

Brings the character of the past to the present day. Each panel features a 6" exposure for a unique architectural effect.
